

REMARKS**Amendments to the Specification**

Applicants have amended the specification at page 6, lines 16-17 to delete the phrase, "FIGS. 20A and 20B are graphs showing the access speeds of 4 DRAM types." Applicants have further amended the specification at page 6 on line 18 to delete the phrase "21A and 21B" and to add the phrase, "20A and 20B" following the deleted portion of line 18.

No new matter has been added through these amendments to the specification. The amendments to delete the phrase "21A and 21B" and to add the phrase "20A and 20B" were made to merely correct typographical errors. Support for these amendments is found in the specification at least on page 36 at lines 4-5, and in FIGs. 20A and 20B as originally filed in the application.

Applicants respectfully submit that these amendments to the specification correct any inconsistency between the Brief Description of the Drawings in the specification and the numbering associated with the figures as brought to Applicants attention by the Notice of Drawing Inconsistency with Specification..

CONCLUSION

It is respectfully submitted that the amendments to the specification do not introduce new matter. Therefore, entry is appropriate under Rule 1.312, and is respectfully requested.

If necessary, please charge any additional fees or credit overpayment to Deposit Account No. 19-0743.

Respectfully submitted,

SANG K. CHA ET AL.
